

Little One, You're Home

Little one, hear my song.
This is the place where you belong.
You'll be with us your whole life long.
You're home.

Little one, as you walk,
And you're learning how to talk,
Someday you'll wander past our block
Called home.

Little one, all is well
In your heart you'll always tell
This is your happy place to dwell
Called home.

Little one, take my hand.
No matter where you take your stand,
We are your place that's safe to land.
We're home.

Little one, listen, dear.
You may move both far and near.
But family is always here.
We're home.

Little one, it is true.
Someday you'll be a mommy too
You'll make a place for baby new
Called home.

Little one, even so,
No matter where you may go,
You'll always have a place you know
Called home.
